

43. Explain how effective economic decisions (e.g., determining the best level of consumption) require comparing the additional costs of alternatives with additional benefits (E-1A-M2)

Economic Decision	Additional Costs of Alternatives	Additional Benefits
Fossil Fuels v. Bio-Fuels		
Nuclear Power w. Solar Power		
Military Goods v. Civilian Goods (“Guns v. Butter”)		
iPod v. PSP		
Going to a movie theater v. renting DVDs
